

Universal Pack Srl undertakes:

- to comply with the legislation set to protect the Health and Safety of Workers, and to facilitate the achievement of this objective by establishing an Occupational Health and Safety (OH&S) Management System compliant with ISO 45001:2018, making available the necessary human and instrumental resources;
- to ensure that the OH&S Management System involves the entire company organization, from employer to the individual worker, according to their duties and responsibilities; to this end, workers will be sensitized and trained to perform their duties safely and to assume their respective responsibilities;
- to consult workers and their safety representative;
- to encourage participation through health and safety committees;
- to eliminate hazards and reduce health and safety risks;
- to favor the continuous improvement of safety and prevention;
- to use a monitoring system to check the implementation of the OH&S System and its compliance with the legislative and regulatory provisions on health and safety, by defining appropriate indicators;
- to manage and monitor production activities, equipment and technological systems without interruption, in order to guarantee the lowest possible impact on the environment and the health and safety of workers;
- to reduce the incidence of workplace accidents and prevent the onset of occupational diseases;
- to periodically review the security policy and the implemented OH&S Management System, undertaking to consider OSH and relative results as an integral part of business management;
- to define and communicate the OH&S Management System objectives and the corresponding implementation activities within the company.
